## **2021 President's Report**

We continued over the past year to face the challenges from COVID-19. As an organization, we continued to get innovative in virtually delivering programs and reevaluating how to deliver programming as restrictions continue to get lifted. As an organization, we made great strides this year in welcoming onboard a new Treasurer, Emily Zobel, and we would like to thank Dale Johnson for his many years of service as our treasurer. We will soon be launching a new website at [macaa.umd.edu](http://macaa.umd.edu) that will be a great asset to the membership.

This year we were planning an in-person meeting for Ocean City, but those plans changed, and we are again online. Next year, we will be able to meet again in person.

Please join us in congratulating the 2021 MACAA and NACAA award winners:

**Achievement Award – Neith Little**  
**Mid-Career Award – Andrew Ristvey**  
**Distinguished Service Award - Jenny Rhodes**

The 2021 NACAA AMPIC is coming up soon, and many of us will be able to attend, so make your plans now to attend virtually if you have not already.

Thank you all for making this year great.

Respectfully,  
Paul Goeringer

## MACAA Foundation Fund Committee Report

The purpose of the MACAA Foundation Fund Committee is to consider and recommend expenditures to the Foundation Fund Governing Board. The Foundation supports the professional improvement of its members and the improvement of the MACAA organization. In addition, the Foundation helps to create awareness by individuals and organization of the purpose of the NACAA Foundation Fund.

The Foundation is an account under the MACAA Federal Tax Identification number and is exempt from Federal income tax under section 501 (c), (6) of the Internal Revenue Code. Contributions to the account are not tax deductible.

Activity during the past year is shown on the following Balance Sheet and Income and Expense statements. AA award was issued in '19, but cashed in '20. No reimbursements were issued in '20 as the annual meeting was virtual.

Please note that the present balance in the Edward Jones account reflects a reserve of interest income from past years as well as restricted corpus assets (equal to \$26,772.51).

As of December 31, 2020, the Foundation had a PNC checking account balance of \$9082.61. The Edward Jones Investment account had a balance of \$58,269.53 (increased 14.8%). The total net value is \$67,352.14 which is up **\$7,345.64**.

2015-2021 Maryland Department of Agriculture and University of Maryland collaborated to create teaching points and power point programs for Commercial Pesticide Applicators and Professional Fertilizer Applicators for Re-Certification. There are now over 1,700 certified Professional Fertilizer Applicators (PFA) in Maryland who receive re-certification credits each year, often in conjunction with Commercial Pesticide Recertification through the University of Maryland Extension. There are over 1,200 licensed pest control businesses, over 250 licensed public agencies and over 3,000 certified applicators in the state of Maryland, and they need to be recertified each year. There are 2 commercial pesticide recertification programs on the Eastern Shore and 2-4 programs on the western shore per year to provide opportunities for the PFA to earn recertification each year.

The Maryland Nursery, Landscape and Greenhouse Association and University of Maryland Extension continue to collaborate to bring more horticultural conferences available to the Maryland Green Industry. The very successful educational conference created by Maryland Extension Educators and Specialists include Chesapeake Green, A Horticulture Symposium, The Cut Flower Short Course and Summer Tour, the Greenhouse Short Course, the Alternative Crops Course, Storm Water Management Conference, and the MNLGA Field Day.
